

# Moving Day

## MOVING HOUSE CHECKLIST

№	ACTIVITIES	NOTES	
1	<b>Collect your keys</b>	Whether you are buying a home or renting, you'll be told exactly when to collect your keys. Make sure you get them as early as possible in the day.	
2	<b>Talk to your new landlord</b>	Take photos of the property when you leave	
3	<b>Take photos of your property when you arrive</b>	Make a note of damage. Again, important if you're renting. You want a log of everything that could pose an issue in the property.	
4	<b>Photograph meters in old and new home.</b>	Electricity, gas, and water meters should be photographed. This ensures that you're only paying for what you used.	
5	<b>Unpacking</b>	You can unpack some furniture when you arrive, but moving home is stressful enough. Leave the bulk of the unpacking for the coming days.
